

Emergency Dental Care

- We provide emergency dental care for all of our patients. We endeavour to see all emergencies within 24 hours of contacting us.
- Please contact us as early as possible after 8 o'clock in the morning if you have severe toothache.
- We see any of our patients as a matter of priority who are bleeding after treatment or have suffered dental trauma.
- Please tell our reception team all you can about your emergency. This information allows us to arrange the most appropriate care for you.
- If your emergency occurs out of our opening hours please call 111 who will help you to see a local emergency dentist. We will then provide your onward care at Care Dental Windsor.
